UNITED STATES DEPARTMENT OF AGRICULTURE,  
STATES RELATIONS SERVICE.

AGRICULTURAL INSTRUCTION DIVISION.

HORTICULTURE PUBLICATIONS OF DEPARTMENT OF AGRICULTURE  
CLASSIFIED FOR THE USE OF TEACHERS.

The following list of publications has been prepared to assist teachers in making an intelligent selection of Department publications on topics pertaining to the subject of horticulture. Teachers should avoid requesting a large list of publications on different topics at one time, or of publications the use of which is to be distributed over a long period of school work. It must be the policy of the Department to limit the distribution of publications to actual present needs as nearly as possible, so that the funds available for purpose of publication can be made to benefit the largest possible number of real users. A few bulletins carefully studied by the teacher and the class or assigned to certain members for individual reports are of much greater service than a hundred forgotten on the shelves at home or in the school library. Copies of any of the publications listed below, except those marked with an asterisk, may be obtained free upon application to the Division of Publications of the U. S. Department of Agriculture as long as the Department's supply lasts. Those marked with an asterisk may be obtained at the prices indicated from the Superintendent of Documents, Government Printing Office, Washington, D. C. Postage stamps, coins defaced or worn smooth, foreign money and uncertified checks will not be accepted. No publications are sold by the Department of Agriculture.

Topic	Title	Publication	Price
Fruit Growing.	*:The Apple and How to Grow It.....	:Farmers' Bulletin 113	: .05
	*:Pineapple Growing.....	:Farmers' Bulletin 140	: .05

1. The first part of the report deals with the general situation of the country and the progress of the work during the year. It is divided into two main sections: the first section deals with the general situation of the country and the progress of the work during the year, and the second section deals with the specific results of the work.

2. The second part of the report deals with the specific results of the work. It is divided into three main sections: the first section deals with the results of the work in the field of agriculture, the second section deals with the results of the work in the field of industry, and the third section deals with the results of the work in the field of commerce.

3. The third part of the report deals with the financial results of the work. It is divided into two main sections: the first section deals with the income of the organization, and the second section deals with the expenditure of the organization.

4. The fourth part of the report deals with the conclusions of the work. It is divided into two main sections: the first section deals with the conclusions of the work in the field of agriculture, and the second section deals with the conclusions of the work in the field of industry and commerce.

5. The fifth part of the report deals with the recommendations of the work. It is divided into two main sections: the first section deals with the recommendations of the work in the field of agriculture, and the second section deals with the recommendations of the work in the field of industry and commerce.

6. The sixth part of the report deals with the appendix. It is divided into two main sections: the first section deals with the appendix in the field of agriculture, and the second section deals with the appendix in the field of industry and commerce.

7. The seventh part of the report deals with the index. It is divided into two main sections: the first section deals with the index in the field of agriculture, and the second section deals with the index in the field of industry and commerce.

8. The eighth part of the report deals with the bibliography. It is divided into two main sections: the first section deals with the bibliography in the field of agriculture, and the second section deals with the bibliography in the field of industry and commerce.

9. The ninth part of the report deals with the list of figures. It is divided into two main sections: the first section deals with the list of figures in the field of agriculture, and the second section deals with the list of figures in the field of industry and commerce.

10. The tenth part of the report deals with the list of tables. It is divided into two main sections: the first section deals with the list of tables in the field of agriculture, and the second section deals with the list of tables in the field of industry and commerce.

11. The eleventh part of the report deals with the list of maps. It is divided into two main sections: the first section deals with the list of maps in the field of agriculture, and the second section deals with the list of maps in the field of industry and commerce.

12. The twelfth part of the report deals with the list of photographs. It is divided into two main sections: the first section deals with the list of photographs in the field of agriculture, and the second section deals with the list of photographs in the field of industry and commerce.

13. The thirteenth part of the report deals with the list of illustrations. It is divided into two main sections: the first section deals with the list of illustrations in the field of agriculture, and the second section deals with the list of illustrations in the field of industry and commerce.

14. The fourteenth part of the report deals with the list of references. It is divided into two main sections: the first section deals with the list of references in the field of agriculture, and the second section deals with the list of references in the field of industry and commerce.

15. The fifteenth part of the report deals with the list of sources. It is divided into two main sections: the first section deals with the list of sources in the field of agriculture, and the second section deals with the list of sources in the field of industry and commerce.

16. The sixteenth part of the report deals with the list of authors. It is divided into two main sections: the first section deals with the list of authors in the field of agriculture, and the second section deals with the list of authors in the field of industry and commerce.

17. The seventeenth part of the report deals with the list of titles. It is divided into two main sections: the first section deals with the list of titles in the field of agriculture, and the second section deals with the list of titles in the field of industry and commerce.

18. The eighteenth part of the report deals with the list of subjects. It is divided into two main sections: the first section deals with the list of subjects in the field of agriculture, and the second section deals with the list of subjects in the field of industry and commerce.

19. The nineteenth part of the report deals with the list of keywords. It is divided into two main sections: the first section deals with the list of keywords in the field of agriculture, and the second section deals with the list of keywords in the field of industry and commerce.

20. The twentieth part of the report deals with the list of terms. It is divided into two main sections: the first section deals with the list of terms in the field of agriculture, and the second section deals with the list of terms in the field of industry and commerce.
